

Weather Proof Housing, big, with Power Supply Unit G-Case/WPH-1010

- Durable weatherproof housing made of aluminium.
- Concealed cable guide for optimum protection against sabotage of the cable connections.
- Integrated power supply
- Temperature-controlled windscreen heating to prevent condensation.
- Suitable for wall and ceiling mounting

The weatherproof housing has been specially designed for box cameras. The power supply of the components in the housing is provided by an installed power supply unit, which is supplied with 110-230V AC. The housing, made of high-quality, painted aluminium, is particularly suitable for use in climatically harsh outdoor areas. The temperature-controlled heating with heat protection for the lens enables the operation of the built-in devices even at low outside temperatures. and also reliably prevents the windscreen from fogging up. The integrated blower, in turn, ensures that the sensitive electronics of the components in the housing is not overheated. The wall bracket is not included in the scope of delivery.

Technical data

Protection rating	110 - 230VAC; 1,05A; 50/60Hz
IP class	IP 66
Heater regulation	<4°C on; >15°C off
Weight	approx. 4,2 kg
Outer dimensions	560 x 194 x 330 mm (L x W x H)
Material	Aluminium
Color	RAL 8022 / RAL 9002 / RAL 1028 (front and rear side / housing / sealing)
Optional accessories	G-Case/WMB-005 (5.15922) - Wall Mounting Bracket, G-Case/BCE-010 (5.15921) - Ceiling Bracket, G-Case/PMA-101 (5.18375) - Pole Mount Adapter
Order No.	0.02800
